

TRANSCRIPTION SERVICES

At VECRA, we support you in your efforts to Create, Maintain or Improve your Transcription Services program. By doing this, we provide concierge level service that converts speech (either live or recorded) into a written or electronic text document. VECRA also offers Transcription services for business, legal, or medical purposes.

VECRA's Transcription Services provide the highest standards of quality & accuracy, along with a proven track record of excellence & dependency. We are a small woman owned and service-disabled veteran owned business that highly abides by HIPPA security standards and strict company policy regarding precision and awareness of base standards.

Our transcription services enhance the value of the spoken word by producing clear-cut results, guaranteeing trusted verbatim and audio transcription services to our customers.
