Job Description

The Project Manager for Maryland's transportation systems will oversee the planning, execution, and delivery of critical projects designed to improve and modernize transportation infrastructure. This role involves leading cross-functional teams to ensure that projects are completed on time, within budget, and to the required quality standards. The Project Manager will coordinate with stakeholders, manage project resources, and navigate regulatory requirements to drive successful project outcomes that enhance the efficiency and safety of Maryland's transportation network. The candidate will work alongside a dedicated team of professionals committed to innovation, efficiency, and excellence.

ROLES and RESPONSIBILITIES

- **Lead cross-functional teams to deliver complex technical projects on time and within budget successfully.**

- Develop comprehensive project plans, including scope, schedule, resources, and risk management strategies.
- Ensure that investments and initiatives in project management services are aligned with business strategy, priorities, security, and compliance.
- Identify, assess, and manage project risks, developing mitigation strategies to ensure project success.
- Implement quality assurance processes to monitor and evaluate project deliverables.
- Develop and manage project budgets, ensuring financial objectives are met and delivered on time.
- Define and implement project management methodologies, standards, and best practices.
- Collaborate with stakeholders at all levels, including government officials, engineers, contractors, and the public, to ensure project alignment with strategic objectives and community needs.
- Monitor project progress, identify potential roadblocks, and implement proactive solutions to keep projects on track.
- Maintain accurate documentation and reporting to track project milestones, budget expenditures, and performance metrics.

QUALIFICATIONS and REQUIRED SKILLS:

- Certified Project Management Professional (PMP).
- Experience managing technical projects in a government or public-sector environment, with a strong understanding of government regulations and compliance requirements.
- Exceptional leadership and communication skills, with the ability to effectively motivate teams and build consensus among diverse stakeholders.
- Proficiency in project management methodologies such as Agile, Scrum, or Waterfall, with a successful project delivery track record.
- Strong analytical and problem-solving abilities, keen attention to detail, and a results-oriented mindset.
- Demonstrated ability to effectively communicate and successfully collaborate with users, vendors, IT professionals, and Subject Matter Experts.
- Familiarity with transportation industry standards, technologies, and best practices

EDUCATION

- Bachelor's degree in business management, Information Technology, or related field

OTHER

- **Duration:** Until 06/06/2025
