

VECRA is seeking a Full-Time SAP Datasphere and SAC Developer

VECRA, Inc. seeks a skilled SAP Datasphere and SCA Developer to join our dynamic team. The ideal candidate will possess in-depth knowledge of SAP Datasphere and SAP Cloud Application (SCA) development, with a proven track record in designing, developing, and implementing solutions that align with business objectives. This role involves collaborating closely with cross-functional teams to deliver high-quality, scalable solutions that meet the organization's needs.

COMPANY DESCRIPTION

VECRA, Inc. is a service-disabled veteran-owned small business (SDVOSB), woman-owned small business (WOSB), minority business enterprise (MBE) consulting firm implementing proven methodologies that help our clients drive growth, transform businesses, and innovate breakthrough ideas. VECRA's extensive experience with innovative software applications, reporting systems, facilities and supply chain management, program management and staffing support services are always:

Vigilant * Efficient * Collaborative * Responsive * Accurate

JOB DESCRIPTION

The SAP Datasphere and SCA Developer will be responsible for SAP Datasphere and SAP Cloud Application (SCA) development, including data modeling, integration, and application deployment. This role involves collaborating with cross-functional teams, ensuring seamless integration with existing SAP landscapes, and providing technical support and documentation. The ideal candidate should possess strong problem-solving skills, a detail-oriented approach, and the ability to work both independently and within a team. The role will involve working onsite at Amtrak, Washington, DC.

ROLES and RESPONSIBILITIES

- Design and develop data models using SAP Datasphere.
- Optimize data architecture for performance and scalability.
- Integrate data from various sources into SAP Datasphere.
- Ensure seamless data flow and consistency across systems.
- Configure and customize SAP Datasphere to meet business requirements.
- Develop and implement data transformation and processing logic.
- Monitor and enhance the performance of data models and queries.
- Adhere to all security practices and policies
- Perform related duties as directed

QUALIFICATIONS and REQUIRED SKILLS:

- Eight (8) or more years of experience in SAP Datasphere development
- Proven experience with SAP Cloud Application (SCA) development and deployment
- Strong proficiency in SAP Datasphere, including data modeling, data integration and data flow design
- Advanced knowledge of common networking protocols and topologies
- Knowledge of Lifecycle Management processes
- Knowledge of common enterprise network monitoring and troubleshooting tools
- Knowledge of Telecommunications Standards, Best Practices, and Solutions
- Knowledge of Data Center Standards, Best Practices, and Solutions
- Knowledge of Public Cloud networking Standards, Best Practices, and Solutions
- Knowledge of Cybersecurity Standards, Best Practices, and Solutions

EDUCATION

- Bachelor's Degree in Computer Science, Information Technology, or a related technical field.

OTHER

- **Duration:** 6 months
- **Salary:** \$75/hour
- **Location:** Onsite; Amtrak, Washington, District of Columbia

BENEFITS

We offer a competitive benefits package for full-time employees to include paid holidays, paid time off, medical and dental.

VECRA, Inc. is an equal opportunity and affirmative action employer. VECRA is committed to administering all employment and personnel actions on the basis of merit and free of discrimination based on race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status, or disability.
